Index to Volume XXVI

Page citations are made to single pages; these are often the beginning of a chapter, section, or running discussion dealing with a topic.

Academic achievement: prediction of, 18, 75
Academic freedom: limitations of, 311
Academic success: effect of counseling on, 298; factors associated with, 300
Accidents: in school, 551
Achievement testing: trends in, 272
Achievement tests: scoring of, 78; types of, 72; uses of, 74
Action research: as a point of view, 334; examples of, 231
Adjustment: as a criterion of mental health, 443; concepts of, 441; inventories of, 26
Administration: of audio-visual programs, 146; trends in research emphasis, 211
Administrators: role and behavior of, 218
Adolescent culture: impact on personality formation, 459
Adult education: in agriculture, 363; in homemaking, 375; uses of television in, 131
Aggression: factors associated with, 257
Agricultural education: evaluation of, 364; guidance in, 362; programs in, 359, 363; teaching of, 360
Anthropology: and the cross-cultural method, 447; implications for education, 429
Anxiety: nature and functions of, 256
Aptitude test batteries: studies of, 15
Aptitude tests: prediction of academic achievement, 18; prediction of success in professional training, 17; types of, 14; validity of, 18
Aptitudes: testing of, 270
Attendance: factors associated with, 300
Attenuation paradox: concept of, 92
Attitudes: changes in, 296; measurement of, 278; use of films in teaching, 127
Audience characteristics: effect on learning from films, 136
Audio-visual laboratories: use as resource centers, 188
Audio-visual materials: effectiveness of, 125; uses of, 125
Audio-visual programs: surveys of, 146

Bronx Park Project: discussion of, 166
Business education: and bookkeeping, 390; and general business, 389; and typewriting, 390; general clerical, 391; needed research, 394; organized research in, 388; stenographic, 392

Case study: as a research technic, 280, 329
Child behavior: understanding of, 251
Child growth and development: and the curriculum, 228; and mental health, 455
Cognition: and personality organization, 467
Colleges: uses of television in, 130
Communicable diseases: control of, 532
Community resources: definition of, 157; development of, 162; uses of, 159
Community school: concept of, 159
Content analysis: as a research technic, 335
Correlation coefficient: computational aids, 96
Counseling: discussion of, 292
Cultural conflicts: discussion of, 433; examples of, 436
Curriculum: and mental health, 423, 444, 490; and physical health, 544
Curriculum laboratories: surveys of, 184
Curriculum research: systematic approach to, 232; 25 years of, 224

Dental health: problem of, 529
Dependency: factors in, 258
Diagnosis: use of achievement tests in, 78
Diagrams: readability of, 119
Differential prediction: technics of, 103
Distortion: of responses to inventories, 36
Distortion in items: concept of, 91
Distributive education: programs in, 393
Driver education: effectiveness of, 552

Eight-year study: effect on curriculum, 225
Elementary schools: uses of television in, 129
Emotionally disturbed: screening of, 481, 530; treatment of, 484

Emotions: and child development, 252
Evaluation: of item effectiveness, 94; of sampling errors, 101; statistical methods for, 89; use of tests in, 5
Experimental design: case study and statistical study compared, 329; discussion of, 333
Eyesight: screening procedures, 526

Factor analysis: as a research technic, 336; discussion of, 283
Farming: educational programs in, 360
Field trips: effectiveness of, 163
Filmstrips: effectiveness of, 131; uses of, 131
Free and inexpensive materials: administration of, 175; evaluation of, 177; problems in using, 173; selection of, 176; uses of, 171

Government: and school administration, 217; relationship with schools, 214
Grade placement: of textbooks, 118
Grades: reliability of, 78
Group dynamics: influence on curriculum, 227
Group therapy: in counseling, 298
Guidance: and adjustment, 299

Health education: cooperative planning in, 544; evaluation in, 549; trends in, 542
Health of students: appraising of, 525
Health services: administration of, 522
Hearing: screening procedures, 527
Heredity and environment: interrelation of, 251
Historical method: as a research technic, 328
History of education: studies, 318
Home economics: administration of, 376; curriculum in, 373; evaluation of, 371, 373; needed research, 377
Homemaking programs: in college, 373; in secondary school, 371
Human biology: influence on mental health, 452
Human relations: influence on curriculum, 227

Illustrations: effectiveness of, 133; readability of, 119
Individual differences: and curriculum, 226; emphasis on, 249
Industrial education: curriculum in, 380; distribution of studies in, 379; evaluation of, 382; problems needing study, 383; programs in, 380
Information: use of films in teaching, 125
Instructional materials centers: discussion of, 184
Instructional technics: comparisons of, 125, 139; in agricultural education, 361; in home economics, 375; in industrial education, 381
Intelligence: testing of, 268
Interest: and job satisfaction, 301; as a factor in choice of books, 116; inventories of, 26; measurement of, 278
International understanding: as reflected in textbooks, 116
Interpersonal relationships: behavioral contexts, 457
Interview: as a data-gathering device, 327
Inventories: adjustment, 26; distortion of responses, 36; interests, 26; new developments, 29; new scales for, 32; norms, 40; personality, 26; reliability of, 40; validity of, 41
Item analysis: computational aids, 96; methods of, 34, 89; sampling errors in, 101
Item discrimination: measures of, 94
Item selection: for homogeneous tests, 89; procedures for, 89
Item types: studies of, 34

Learning: as affected by films, 125; measures of, 74; theories of, 465
Libraries: use as resource centers, 190
Library: technics of documentation, 328

Magazines: uses of, 120
Maturation: stresses in, 439
Measurement: problems of, 268
Mental health: classifications of, 431; concepts of, 429, 451, 479
Mental health education: of the child, 490; of the community, 489; of parents, 487; of teachers, 486; school and community programs in, 479
Mental hygiene: and the educative process, 254; concepts of, 417; objectives of, 417
Montana study: discussion of, 165
Motion pictures: audience reactions to, 136; desirable conditions for viewing, 138; effectiveness of, 125
Motivation: and learning, 465; views of, 248
Museums: use as resource centers, 186

Needs: studies of, 226
Norms: for inventories, 40
Nutrition: status of school children, 528

Observation: as a research technic, 275, 326
Occupational information: research in development of, 302

Parents: education of, 487
Pattern analysis: methods of, 38, 104
Personality: and behavior, 464; and the educative process, 254; and vocational choice, 351; growth and development, 420; inventories of, 26
Personality testing: growth of, 274
Personnel: research on, 215
Philosophy of education: diversity of, 312; 25 years of, 308
Physical facilities: effect on learning from films, 137
Physical fitness: of children and youth, 548
Prediction: of academic achievement, 18, 75; of success in professional training, 17; technics, 102; use of projective technics in, 64
Printed materials: characteristics of, 115; factors affecting choice of, 116; problems in using, 173; uses of, 171
Profile analysis: methods of, 38, 104
Projective technics: discussion of, 56; in study of personality, 276; norms, 63; reliability of, 58; use in counseling, 297; uses of, 64; validity of, 58
Propaganda analysis: teaching of, 173
Psychology: developmental, 250; general theory, 241; of learning, 246, 255; of school subjects, 258; texts in, 241
Public schools: role in improving community living, 164
Pupil services: research on, 216

Questionnaire: as a data-gathering device, 327

Radio programs: effectiveness of, 134
Readability: of diagrams and illustrations, 119; of textbooks, 117
Recordings: effectiveness of, 134
Reliability: estimation of, 99; of grades, 78; of inventory scores, 40; of projective technics, 58; relation to item selection, 92
Religion: role in education, 311
Research: attitude toward, 324; definition of, 323; logical framework, 316; treated by REVIEW, 324
Research methodology: and understanding of mental health, 447; in human behavior, 470
Review: effectiveness of, 142
Rorschach: studies of, 58

Safety education: effectiveness of, 549
Sampling: opinion polls, 337
Sampling errors: in item analysis, 101
Scales: transformations of, 104
School districts: organization of, 214
School finance: trends in research emphasis, 215
School law: patterns of, 214
Scoring: of achievement tests, 78
Secondary schools: uses of television in, 129
Sequential analysis: use in item selection, 95
Sex education: in the schools, 546
Skills: use of films in teaching, 126
Slides: effectiveness of, 131
Sloan experiments: discussion of, 164
Social caste: effect on the school, 310; influences of, 229
Social class: and implications for education, 440, 463; and intelligence testing, 269; impact on the school, 310; influences of, 229
Social function of education: theories of, 308
Socioeconomic status: and vocational choice, 349
Statistical methods: in education, 330; in test construction, 89, 281
Statistical study: compared with case study, 329
Student participation: effect on learning from films, 140
Surveys: opinion polls, 337; sampling technics, 337

Teacher education: in business education, 394; in industrial education, 382
Teacher-pupil relationships: aspects of, 508
Teachers: education of, 425, 486, 511, 547; effect of social background on, 441, 503; motivations of, 504; psychological characteristics of, 506
Teaching methods: *see* Instructional technics
Technical education: curriculum in, 400; definition of, 398; needed research, 401

Technicians: need for, 398
Television: effectiveness of, 128; uses in Armed Services, 128; uses in colleges, 30; uses in public schools, 129
Test construction: and statistical methods, 281; item selection methods, 89; statistical methods in, 89; theory of, 272
Test data: interpretation of, 80
Test results: interpretation of, 7; uses of, 5
Testing: programs, 7
Tests: in guidance, 351; methods of keying, 92; of vocational interest, 350; *see also* Inventories, Projective technics
Textbook content: analysis of, 115
Textbooks: adoption practices, 120; biases and misrepresentations in, 116; characteristics of, 115; evaluation of, 118; grade placement of, 118; studies of format, 117; uses of, 120
Thematic Apperception Test: studies of, 60
Validity: in relation to attenuation paradox, 92; of aptitude tests, 18; of inventories, 41; of projective technics, 58
Values: and education, 314
Veterans: in vocational agriculture, 363; vocational choices of, 352
Vocational agriculture: objectives of, 359; programs in, 363
Vocational choice: and adjustment, 351; changes in, 353; definition of, 349; factors in, 352; theory of, 354
Vocational homemaking: evaluation of, 370
Vocational interests: and personality, 351
Work experience programs: evaluation of, 409; in college, 407; in high school, 404; in industry, 408; needed research, 409
